Complimentary Braces Exam

Lumineers Provider

Invisalign Offered

Snore Appliance

Root Canals

All Levels of Sedation Available

First Appointment

A thorough examination of all areas of your mouth will be performed. This will include a detailed examination of the teeth, soft tissue, supporting structures, teeth alignment, bite, cancer screening and more. All of this information will be carefully evaluated so that we may accurately diagnose your dental needs.

You will be instructed in a preventative oral hygiene program. During this time you will be made aware of the best and latest home care practices that correspond to your individual needs. Your teeth will be cleaned by one of our licensed dental hygienists. They are professionals dedicated to preserving and maintaining your oral health.

Dental Evaluation and Treatment Plan

After the comprehensive exam you will receive an outline of your dental evaluation and a treatment plan. If treatment choices are possible, they will be explained and presented. Your treatment plan will restore your mouth to a healthy and functional state with minimal future treatments required.

An estimate of the approximate cost of treatment will be made at this time. You are encouraged to ask any questions concerning your dental care.

Time and Scheduling

We will perform the maximum amount of treatment in as few well-planned appointments as possible. Every effort will be made to schedule these appointments to accommodate your personal schedule. Repeated abuse of missed appointments will result in dismissal from our practice. Your promptness for appointments allows our office to operate on schedule and assures our other patients of the same timely treatment.

Financial Arrangements

Payment is expected and due at the time services are rendered. This allows us to control billing and accounting costs thus keeping down the cost of your dental care. If extensive treatment is necessary or treatment exceeds your budget, other financial arrangements may be made with our office manager before treatment begins.

Ask us about interest free financing through Care Credit!

Our Office Payment Policy is as follows:

1. 5% discount for treatment plan paid in full at first visit after consultation.
2. Full payment is due at time of appointment for that day's services, unless other arrangements are made.
3. Your dental insurance will be accepted as partial payment. As a courtesy to you, we will file your insurance.
4. Credit cards are accepted.

You will be asked to choose your method of payment and sign an agreement of these terms.

Recall

We share the desire of all our patients to minimize the need for extensive dental treatment. This can only be done by regular examination which prevents little problems from becoming big or expensive ones.

After completing your treatment, you will be placed on our Preventative Recall Program which requests you to return at a specified time for re-examination. We will evaluate your home care and professionally clean your teeth. Preventative dentistry is the best dentistry. *Don't miss your check-up!*

Emergency Visits

We will make every effort to treat your immediate problem. Patients who enter this practice on an emergency basis should arrange for further treatment. Making dental visits only when an emergency arises will not be acceptable in this office.

Thank you again for selecting our office to serve your dental needs.
